

Trust the industry leader in gel baits

When it comes to reliable pest control, formulation matters — and your business can't afford inconsistent results. Trust the industry-leading power of Syngenta gel baits, which are rigorously tested to provide effective, targeted control for your customers indoors and outdoors.

Vanecto™ Cockroach Gel Bait

Vanecto™ Cockroach gel bait, featuring the first novel mode of action in the pest control industry in 20 years, controls a broad spectrum of cockroaches with proven efficacy.

Great for:

- ▶ More thorough, sustained population control with a highly attractive bait matrix
- ▶ Controlling difficult populations with known or suspected resistance
- ▶ Use on sensitive accounts with one of the industry's most flexible labels
- ▶ Reaching less-mobile cockroaches, like nymphs, with its non-repellent formulation

Advion® Trio Cockroach Gel Bait

Advion® Trio cockroach gel bait combines the targeted MetaActive™ effect of *indoxacarb* with two insect growth regulators (*pyriproxyfen* and *novaluron*) for more complete cockroach control.

Great for:

- ▶ Tough cleanouts of large cockroach populations
- ▶ New accounts with unknown pesticide usage history
- ▶ Controlling all cockroach life stages, including nymphs, with its non-repellent formulation

Advion® Evolution Cockroach Gel Bait

Advion Evolution cockroach gel bait, featuring the MetaActive effect and a food matrix that encourages increased feeding, leads to rapid cockroach population management.

Great for:

- ▶ Managing challenging cockroach infestations
- ▶ Enhancing secondary and tertiary mortality
- ▶ Reducing cockroach gel bait aversion
- ▶ Controlling nymphs and adults with its non-repellent formulation

Advion® Cockroach Gel bait

Advion Cockroach gel bait, featuring the MetaActive effect and a palatable matrix, is the #1 cockroach gel bait on the market.

Great for:

- ▶ Maintenance of cockroach baiting programs
- ▶ Attracting multiple types of cockroaches
- ▶ Managing populations through secondary and tertiary mortality
- ▶ Controlling nymphs and adults with its non-repellent formulation

Optigard® Cockroach Gel Bait

Optigard® Cockroach gel bait, featuring a novel bait matrix and a unique mode of action that affects cockroaches' nerves and muscles, is an essential product in any cockroach bait rotation.

Great for:

- ▶ Controlling hard-to-kill cockroach populations
- ▶ Managing insecticide resistance among cockroaches
- ▶ Serving as a rotation partner with other cockroach gel bait food matrices
- ▶ Controlling nymphs and adults with its non-repellent formulation

Advion® Cockroach Bait arena

Advion Cockroach bait arena, featuring the MetaActive effect, is a ready-to-use cockroach bait delivery system that effectively controls cockroaches in commonly frequented areas.

Great for:

- ▶ Controlling cockroaches of multiple sizes
- ▶ Minimizing application mess (bait is self-contained) and ensuring easy disposal
- ▶ Residential, commercial and industrial sites

Advion[®]Ant

Gel bait

Advion Ant gel bait, featuring the MetaActive effect and a broad-spectrum food matrix, sets the industry standard for effective, targeted ant control.

Great for:

- ▶ Managing all common nuisance ants
- ▶ Year-round ant baiting
- ▶ Horizontal transfer that leads to colony-level kill
- ▶ Eliminating the entire ant colony, including the queen, with its non-repellent formulation

Optigard[®]Ant

Gel bait

Optigard Ant gel bait, featuring a carbohydrate-based food matrix and the slow-acting active ingredient *thiamethoxam*, is a go-to product for nuisance ant control.

Great for:

- ▶ Controlling challenging and large-colony ant species
- ▶ Summertime ant baiting
- ▶ Managing sweet-feeder ants
- ▶ Eliminating the entire ant colony, including the queen, with its non-repellent formulation

Advion[®]Ant

Bait arena

Advion Ant bait arena, featuring the MetaActive effect, is a ready-to-use ant bait delivery system that can be placed in commonly frequented areas to effectively control ants.

Great for:

- ▶ Broad-spectrum ant management
- ▶ Minimizing application mess (bait is self-contained) and ensuring easy disposal
- ▶ Keeping ant gel bait moist and attractive, leading to effective colony control
- ▶ Eliminating the entire ant colony, including the queen, with its non-repellent formulation

Advion[®]Ant

Gel Station

Advion Ant gel station, featuring the MetaActive effect, is a ready-to-use delivery system that contains the industry-leading Advion Ant gel bait for broad-spectrum ant control.

Great for:

- ▶ Eliminating ants within days of application
- ▶ Minimizing application mess (bait is self-contained) and ensuring easy disposal
- ▶ Effective colony control with a highly attractive bait matrix
