

New Chemistry, New Savings with PestPartners 365

Vanecto™ Cockroach gel bait is powered by PLINAZOLIN® technology, a new active ingredient and mode of action (IRAC Group 30), to control a broad spectrum of cockroaches, including German, brown-banded, American and more, with uncompromising efficacy. Add this powerful tool to your arsenal and maximize your savings through PestPartnersSM 365.

Limited-Time Innovation Bonus

PestPartners 365 members earn an **extra \$1 per 4-pack on Vanecto Cockroach Gel purchased through Apr. 30, 2026** — in addition to the PestPartners 365 rebate. This Innovation Bonus will be paid on or about September 30, 2026.

How Vanecto Cockroach Fits Into PestPartners 365

Only PestPartners 365 delivers yearlong rebates — and Vanecto Cockroach helps you get there faster.

Every 4-pack earns a \$2 base rebate, helping you become a PestPartners 365 member sooner and advance to higher rebate levels across Syngenta purchases.

Qualifying is simple: Purchase Vanecto Cockroach and other Syngenta Professional Pest products through Apr. 30, 2026 generating at least \$200 in base rebates.

Multiply your earnings: Your rebate multiplier grows with your PestPartners 365 level — higher levels mean bigger rebates.

Enjoy yearlong savings: Once you've locked in your rebate level by Apr. 30, 2026, you'll receive those same savings on all Syngenta purchases through Sept. 30, 2026.

BASE REBATE TOTAL	YEARLONG REBATE PERCENTAGE
≥ \$200 (Partner Level)	100%
≥ \$500 (Silver Level)	120%
≥ \$1,000 (Gold Level)	140%
≥ \$2,000 (Platinum Level)	160%
≥ \$4,000 (Diamond Level)	180%

4-Pack of 30g Syringes | \$34.00

Volume Discount ≥ 2 Cases | \$30.00

- A new active ingredient and mode of action in the pest control market for use within resistance management programs.
- No signal word, no personal protective equipment requirements on the label and EPA Reduced Risk status.*
- SummerPay™ terms can help you manage expenses more easily throughout the year. Defer payment until June 19, 2026 on purchases through Apr. 30, 2026.

Visit PestPartners365.com for program terms and conditions.

*A reduced-risk pesticide use is defined as one which may reasonably be expected to accomplish one or more of the following: (1) reduces pesticide risks to human health; (2) reduces pesticide risks to non-target organisms; (3) reduces the potential for contamination of valued, environmental resources, or (4) broadens adoption of IPM or makes it more effective. Vanecto Cockroach gel bait qualifies under one or more of the above criteria.
